

what is their SHOE SIZE?

1.

Once you print out the Mac & Mia size chart please check that it is printed to scale by placing a quarter or credit card on the dotted line at the lower left hand corner.

2.

Tape the piece of paper to a flat surface, preferably wood or tile.

3.

Have your child stand on the paper with their heel on the dotted line.

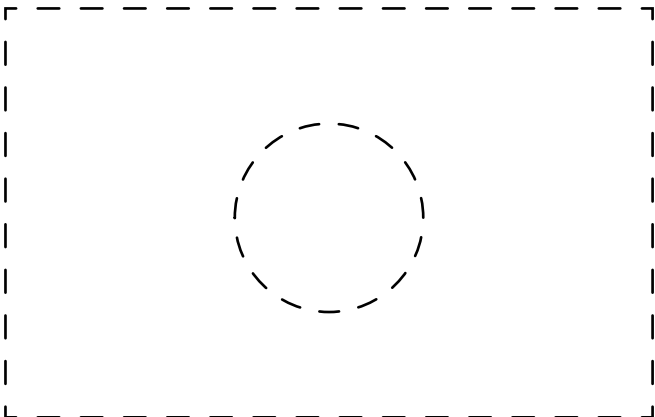

4.

Mark where the longest toe ends with a pen and repeat with other foot.

5.

Their desired shoe size is just above the highest mark. If one foot is longer than the other, round up to that size.

Now that you have the perfect fit,
